Guidelines for Safe and Responsible Blogging

The Do’s:

• Conduct yourself in a manner reflective of a representative of this school.
• Treat your blog as a classroom space. It is not a place for personal and private issues that are not related to school topics.
• Make specific suggestions and back up your opinions with facts.
• If you should come across anything online that makes you feel uncomfortable or afraid, minimize your screen immediately and report to your teacher.
• Respond to posts (or comments) by others. You are connected to a larger community of ideas.
• Respect others. It’s okay to disagree; it’s not okay to be disagreeable. Be respectful of others and their opinions, and be polite when you disagree. Blogs are about ideas. Agree or disagree with the idea, not the person.

The Don’ts:

• Do not post or give out your last name, password, home address, phone number or any personal information that would give information that would help someone directly locate or contact you in person. Use this same guideline when referring to class members.
• Do not post anything that you would not want your family, your teachers, your friends to read. Be aware that everything you post is a reflection of you.
• Don’t always believe everything you read online. You need to make a judgment about whether it can be trusted.
