

Aloha Students, Parents, & Kumu,

Mahalo for taking part in our 2nd annual moa processing event. We all come to this activity with various skills and experiences. My hope is that we all learn something and have a positive experience as we support our keiki. The primary goal of this venture is to support the 8th grade huaka'i in becoming a sustainable event. During the 8th grade huaka'i we celebrate the Makahiki season and the bounty that the 'āina provides. Let's support our local farmers and empower our keiki as we not only buy locally, but learn the value and effort that goes into our food production.

We will start at 8:00am sharp Sat. Oct 8th with the objective of finishing by 11:30am. We will break the process into stations:

1. Bleeding
2. Scalding & Defeathering
3. Disemboweling/Gutting
4. Cleaning & Prepping
5. Bagging & Icing
6. Clean-up & Sanitation

On the morning of the event, I will provide the following:

- Instruction
- Dissection Gloves
- Soap & Disinfecting hand wash
- Aprons & Towels
- Refreshments
- Knives, cutting boards, sanitation spray, etc..

Please wear work clothes & contact me via email or phone if you have any questions.

Mahalo,
Brendan Courtot
