

Concepts and Vocabulary: Categories and Labels

Read and think about each of the words into categories that make logical sense to you. Ask yourself which words would logically go together. After you group the words, give each group a label. Be ready to explain or justify the rationale behind your groups and labels.

Words:				
polygon	sides	triangle	quadrilateral	pentagon
hexagon	octagon	point	line	plane
segment	intersect	parallel	perpendicular	acute angle
congruent	vertical	adjacent	supplementary	complementary
