Getting Started With iGoogle

1. Go to http://www.google.com/ig
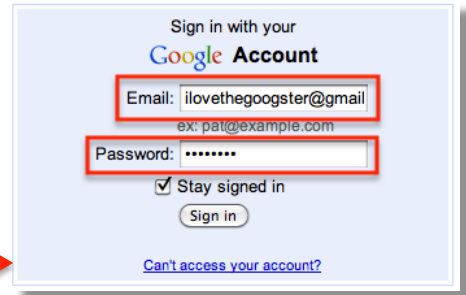

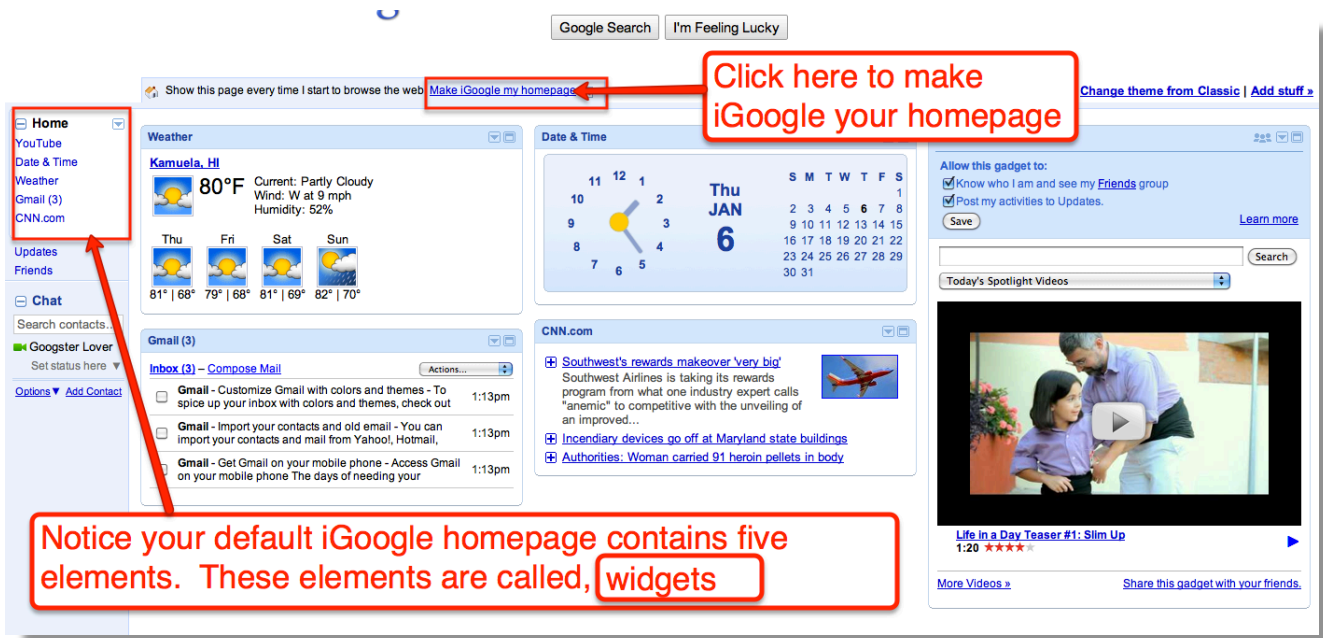

2. Click on **Sign In** to log in

3. Enter your gmail username and password and then click **Sign In**

4. Enter your zip code and then choose**, See Your Page**

5. You should now see your iGoogle Homepage.

Delete gadgets you don't want in your homepage:

1. Click the the little upside-down triangle in the upper right hand of the gadget you want removed.

2. Choose**, Delete this gadget**

3. Choose **Okay**

Add stuff to your page

1. Click on **Add stuff** in the upper right

2. Here's where you can add stuff to your homepage:

Notice you can search for gadgets in the search field, browse for gadgets by category, and add gadgets using a url.

3. Use the Back to iGoogle home link in the upper right to return to iGoogle.
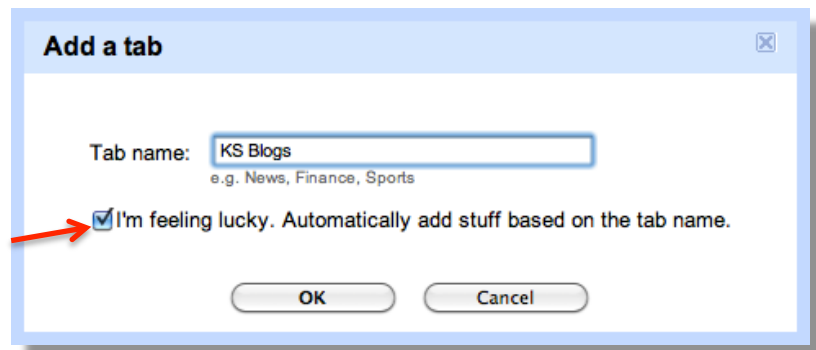

Adding a KS Blogs Tab

1. Click on the little upside-down triangle next to home and select **Add a Tab**

2. Enter a name for your tab in the name field and then choose, **OK**

   Notice the I'm feeling lucky box. You may choose to leave it selected, or unselect. I prefer to have it unselected so I can start with a clean slate.

3. You can now add stuff by using the **Add stuff** linked we learned about earlier, or by choosing the **Look for New Stuff to Ad**d button.

4. Open a new tab by choosing **file** > **New Tab** from your browser.

5. Go to the blog you want to add to your page

6. Highlight and copy the web address

7. Click back over to you iGoogle tab and scroll down to the Add feed or gadget link and click on it.

8. Paste the url into the field and then choose **add**

9. Click on the back to iGoogle home link and you will see your KS Blog Gadget!
