

An illustration of two flying squirrels perched on a thick, brown tree branch. The squirrels are brown with lighter-colored bellies and large, bushy tails. They are looking towards the left. The background is a dark blue night sky filled with many small, yellow, four-pointed stars. A large, bright green, cloud-like shape is positioned above the squirrels, partially obscuring the top of the tree branch.

Razzle and Dazzle, the Super Hero Flying Squirrels

**Written and Illustrated by
Kalena Mahi'ai**

One starry night, two flying squirrels named Razzle and Dazzle were eating some bugs. They had just woken up and were enjoying their time.

Then, they heard someone cry for help! "That sounds like Rayray the rat!" said Dazzle. "We have to go help her!" said Razzle already getting her wings ready.

So Razzle and Dazzle glided to where they heard their friend and saw her getting attacked by an owl. They had to be very careful because owls eat rats AND SQUIRRELS!

So they tried to distract the owl by waving their wings. When he saw them, he darted towards them, but they still had their quick squirrel movement to escape.
