

Where is Our Mommy?

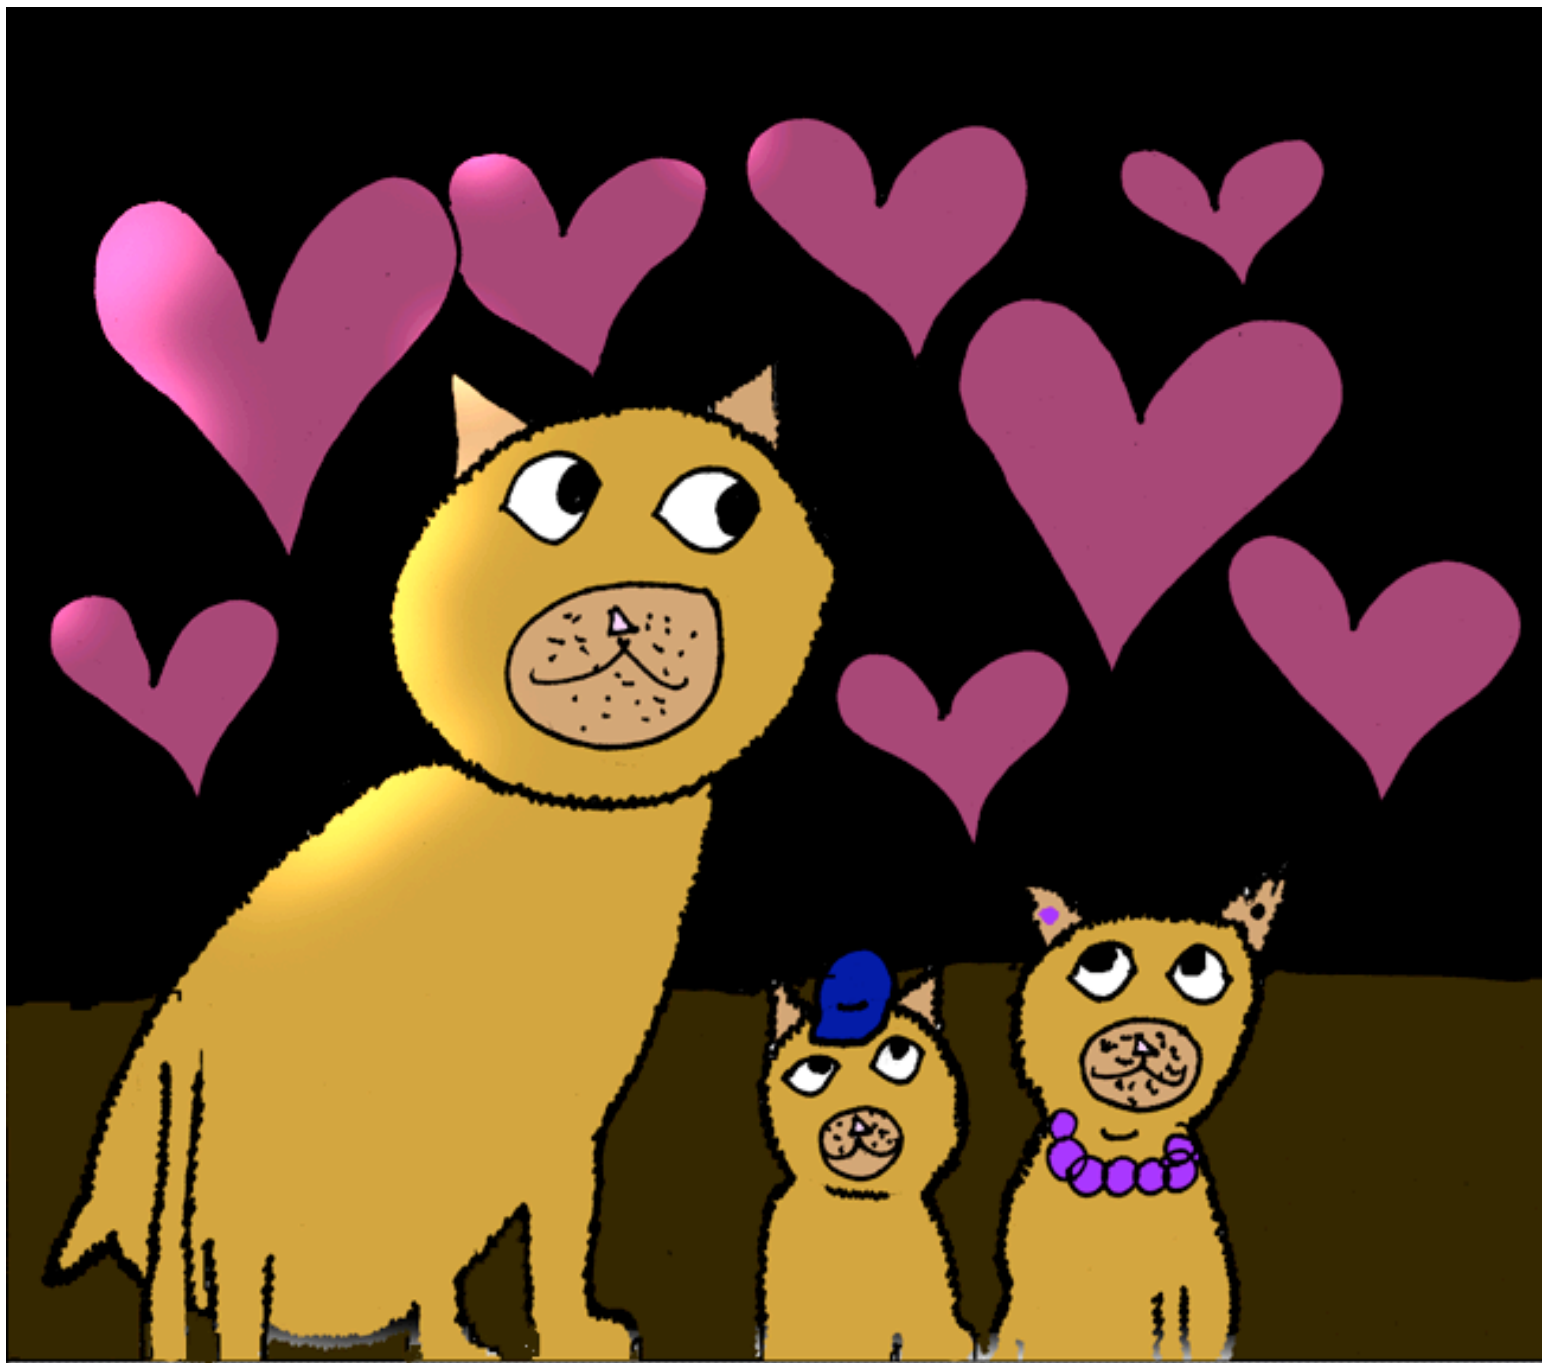

Once upon a time in a forest in Brazil there was a mommy Siberian Lynx named Sarah and she gave birth to 2 kittens named Kayla, Larry.

She fed them their favorite food deer and took very good care of them. She gave them a lot of love and made sure that they were safe.

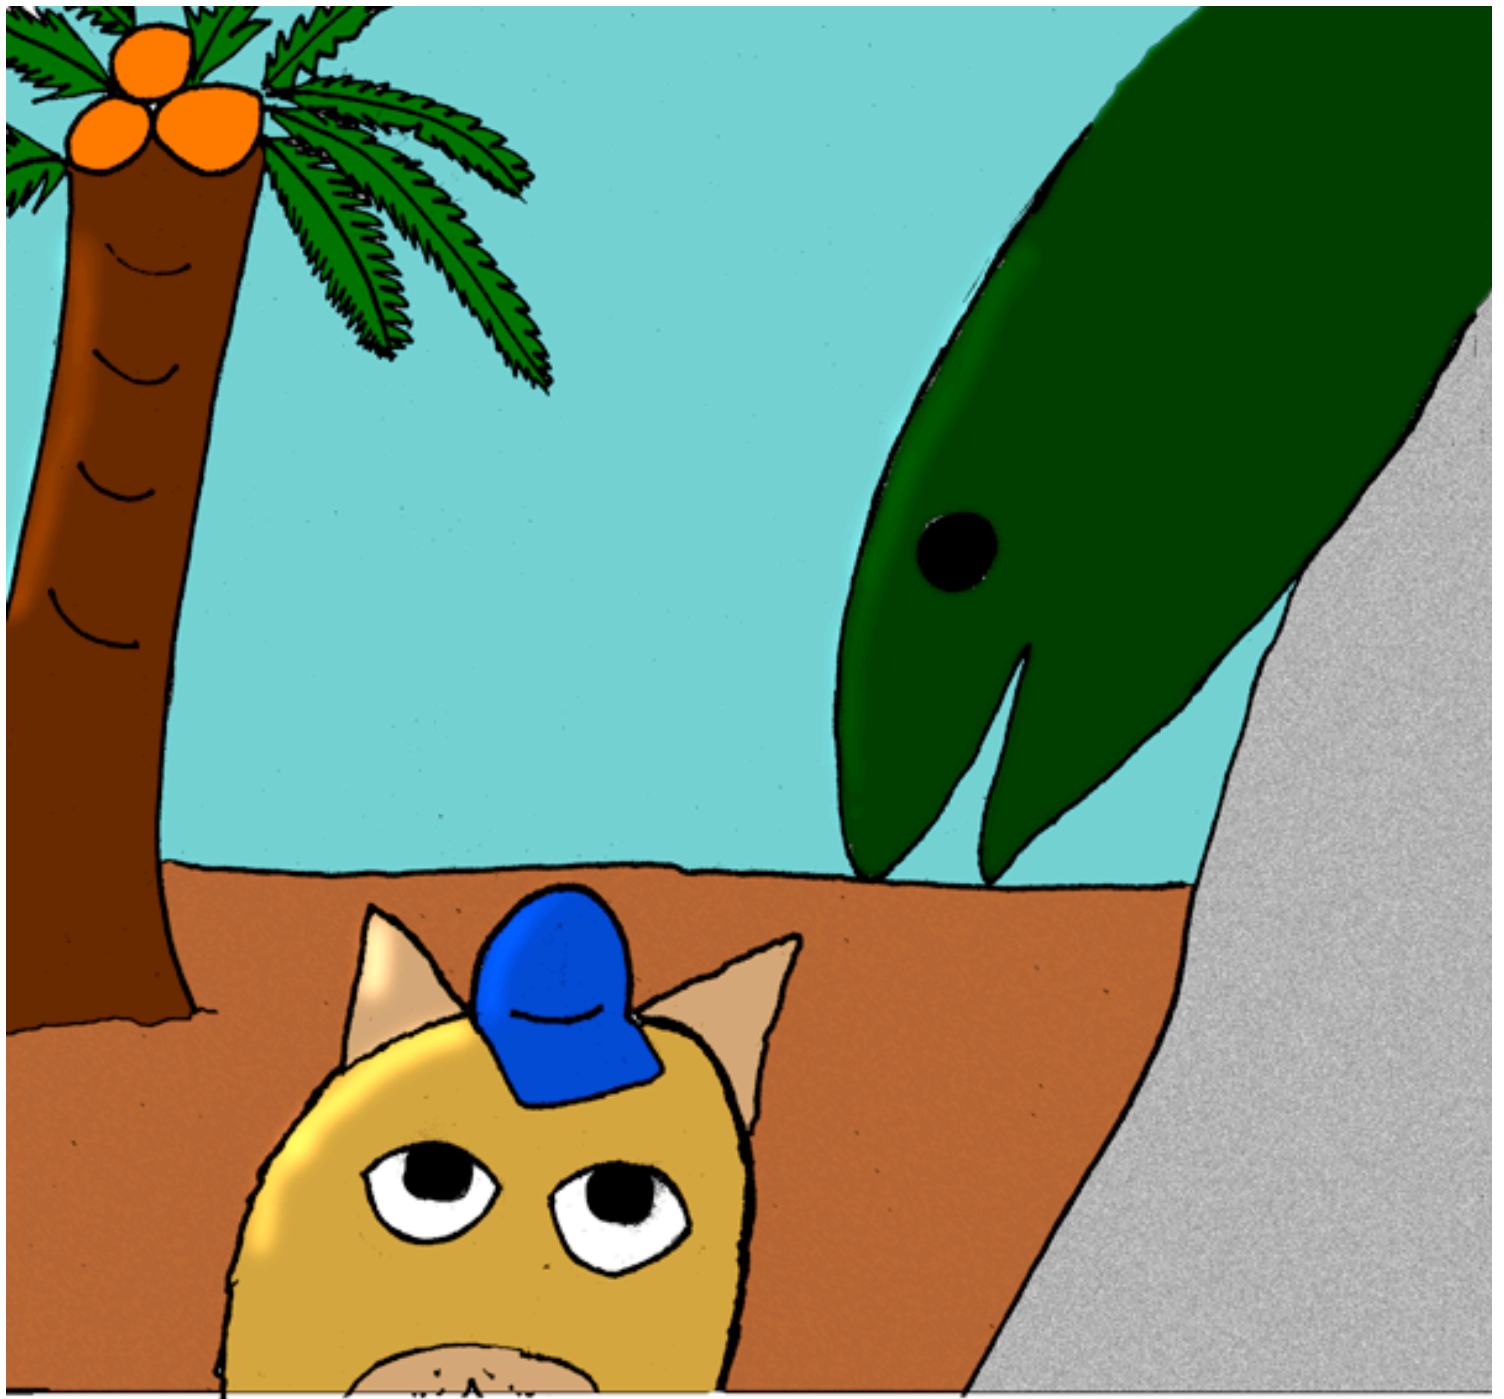

She taught them how to hunt and how to get their own food. She even told them that they could jump 7 feet in the air to catch birds for food.

It was the night before the kittens' 6 month birthday and they were so excited. But, their mommy was hugging them more than usual. They felt so loved thought that their mommy was so happy to see them grow up. So, they went to sleep to rest up for their big day tomorrow.

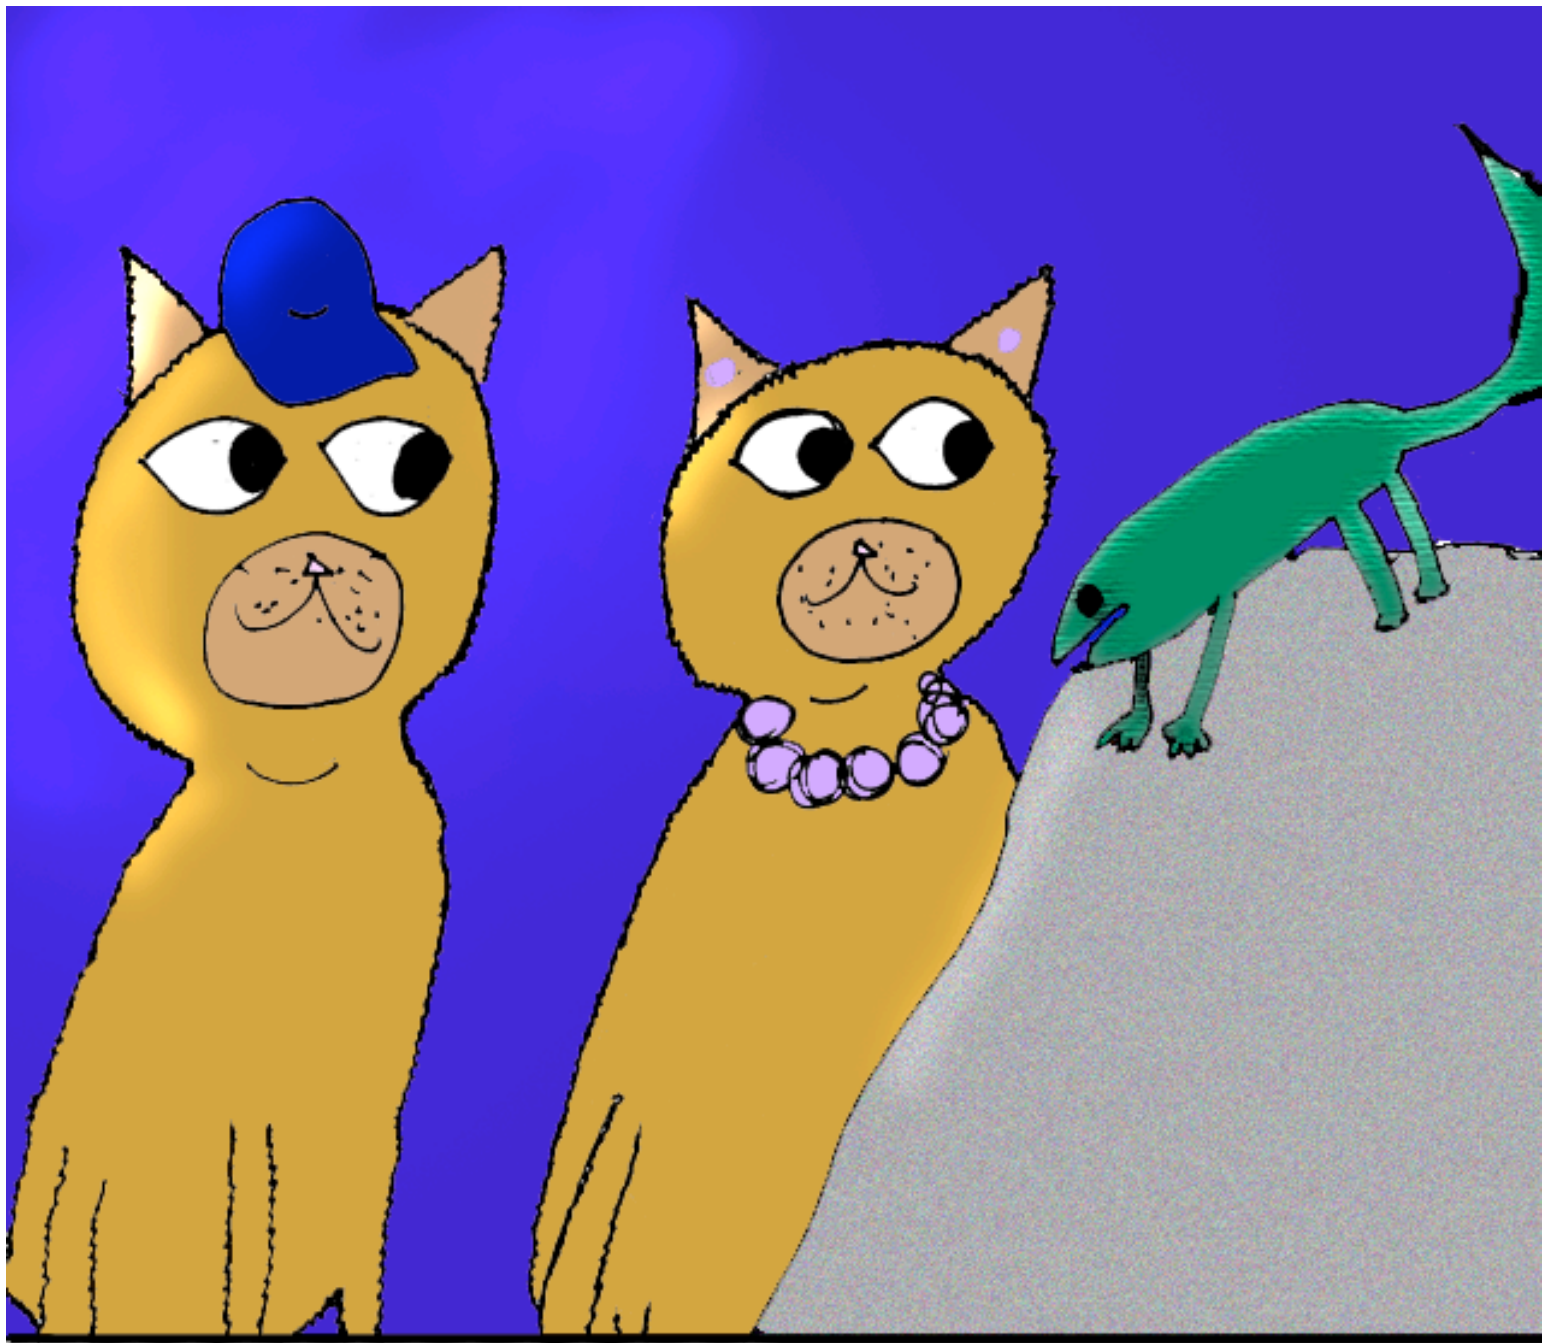

“ Larry! Larry! Wake up!
Mommy’s gone! We can’t find her!”
Kayla scamed. Larry woke up
quickly and helped his sister look for
their mommy.

“ Well, you have to understand that your mommy has t leave you when you are 6 months old.” “Why? Why does she have to leave us?” The kittens asked. “ You see, your mommy wanted you to grow up strong and independent. That’s why she taught you how to hunt and take care of yourselves. She wanted to make sure that you knew how to take care of yourself before she left. She also wanted me to tell you that she loves you very much and she will miss you.” Then the lynxes lived on by themselves and were very responsible.

They looked everywhere but couldn't find her. They checked all around the forest but couldn't find her. They were so worried and they were very sad.

They walked around and asked their friend Michelle the Lizard if she knew where their mommy went. "Michelle, do you know where our mommy went?" Larry whimpered. "I am so sorry I don't know where she went but she told me to explain to you why she left. I can tell you if you like." Michelle said. The little kittens nodded their head, "Please tell us." they cried.
