Camp ‘Imiloa
Linking voyages of exploration...past, present and future
Return to the Moon
Failure is not an Option

‘Imiloa, which means "exploring new knowledge," reflects both the Hawaiian voyages of discovery and the explorations of space. Camp ‘Imiloa is a space-themed program to catalyze student interest in science and the future exploration of space, and in reflecting upon and learning from the voyages of human exploration of the past and the culture and science of the Hawaiian explorers. Join a crew of explorers as we return to the Moon.

A program developed and sponsored by
The ‘Imiloa Astronomy Center of Hawaii
University of Hawaii at Hilo
