The internet dominates adolescent life and culture today, but the unintended consequences of online activity are permanent.

Parents must understand this online landscape in order to protect their children's safety and future.

Join us for a frank discussion about the characteristics of the internet, emerging technologies, and social networking sites.

MR. ARNOLD LAANUI JR. is a special agent with the FBI and a former member of the FBI SWAT Team, who led investigations in areas such as bank robbery, juvenile prostitution, serial homicide, police corruption, narcotics and computer hacking. He is now a vocal proponent of digital ethics and educates thousands each year through radio, TV, and outreach programs on internet safety.
