

Hālau Kupukupu Innovations Academy Summer 2015

Program Dates: June 12 – July 10, 2015

Make learning fun this summer with Kamehameha Schools Hawai'i's new Hālau Kupukupu Innovations Academy! Registration for current KS students opens on KSConnect from January 5 - February 14, 2015. More seats and course options are available for summer 2015 with full-day learning opportunities for your keiki.

Hālau Kupukupu Innovations Academy Summer 2015 is a four-week learning adventure where students are engaged in fun, hands-on experiences in and out of the classroom. As action researchers, students take field trips, learn from experts in our community, and explore the rich outdoor learning environment of Moku o Keawe. The Program offers incredible educational opportunities that inspire passion for learning and enable young learners to be successful and prepared for the next school year.

Kupukupu means “to sprout or grow” as leaves, blossoms, knowledge, and ideas. With ‘āina as the center of dynamic, vital learning experiences blending rigorous and authentic culture-based Science, Technology, Engineering, the Arts, Math (STEAM), literacy pieces, and creative exploration, our keiki and ‘ōpio will grow their skills as innovators and stewards of today and tomorrow.

Course Catalogs will be available mid-December online at <http://www.ksbe.edu/admissions>.
