

KAMEHAMEHA SCHOOLS®

HAWAI'I
KULA HA'AHA'A

FEBRUARY 6, 2015

Aloha mai e nā 'ohana o Kamehameha Hawai'i,

*Has your family traded in conversation and board games for iPads, smartphones, and video games?
Are you constantly telling your child to shut down their iPad, or smartphone?
How are you protecting childhood and family relationships in this digital age?*

Dr. Steiner-Adair will answer these questions and much more regarding *parenting in the digital age*. Also, she will be holding student focus groups prior to the parent session and will be sharing her findings with us. You might be surprised to hear what your children will have to say.

We are currently in the second year of our 1:1 iPad project and believe in the importance of the home to school relationship. As a kula, we value 'ohana relationships and strive to provide you with quality information to help strengthen family bonds. Therefore we are offering this once in a lifetime opportunity to you. I strongly encourage your attendance on Wednesday, February 18, 2015 from 6:30pm—8:00pm in Lunalilo Hale.

As a means to mālama you, our families, we are now offering childcare for this evening. If you choose to bring your keiki to this event, please drop off your elementary-aged child (K-5th grade) at the Charles Reed Bishop Learning Center starting at 6:00pm. Siblings of your KS child that are in grades K-5 are welcomed as well. Please make sure that your child has had dinner prior to dropping them off as food is not allowed in the learning center.

As noted in the previous flyer, we will be offering door prizes and refreshments.

If you would like to attend, please contact Kumu Marcie at 982-0268 or email her at masaquin@ksbe.edu no later than Wednesday, Feb. 11, 2015.

Mālama pono,

Esther Kanehailua, Principal
