

Preface

The index of winds by island consists of two parts. Part I is arranged alphabetically by the land location and the name of the wind for that location. Part II is an index of common winds. The list of winds was compiled from the book, "Ka mahele: ma ka puka waiwale 'ālele 'o Hawaiian Dictionary o Samuel Elbert a me Mary Kawena Pukui Honolulu 1971, University of Hawaii Press, compiled by Kati Loke Rose." I consulted the 1991 Revised and Enlarged Edition of the Hawaiian Dictionary by Mary Kawena Pukui and Samuel H. Elbert while creating this index. However, not all of the islands and land locations of the winds were included in "Ka mahele: ma ka puka waiwale 'ālele 'o Hawaiian Dictionary." Please refer to the explanations as indicated by the symbols that precede the name of the wind for further clarification.

Symbols in the index:

Index of Winds by Island

(Cap.) Dictionary and that the spelling may vary.

(Cap.) Refers to the name of the rain being capitalized.
