

Student Planner

Your child's student planner is an important communication tool that can serve to inform you of your child's assignments, due dates, and upcoming events. It is also a useful tool that will aid your child in organization and time management.

Your child is given time to copy assignments daily. Once your child completes an assignment, he/she should check it off in the column marked with a " ."

The planner is checked the following day for parent signature/initials, which indicates that you are aware of the assignments, and that they have been completed. You may also use the planner to write questions or concerns you have, or you may call or email me at any time (room phone: 572-3214; e-mail: kakama@ksbe.edu).

Mahalo for all that you do to support your child daily!

Me ke aloha pumehana,

K. Kama
