

Reading Log

All students become better readers by practicing reading. For this reason, students are encouraged to spend at least 20 minutes reading each day. *Reading aloud to an adult or sibling*, *reading silently*, and *listening to someone model "good" reading* are all good and helpful ideas. Please provide a quiet environment for reading and sign the Reading Log nightly.

Students may borrow books from our classroom library to read at home. Students may choose to read books from his/her personal library at home. Your child may also borrow books from our school library once it is up and running.

If you find that your child has chosen a book that is too difficult, please have him/her return the book the next day so he/she may find another one. We will be doing Accelerated Reader for your child's independent reading. If the book your child is reading is an A.R. book, he/she will take a quiz upon completion of the book. Each month, the students will be given a goal. For the month of August, there will be no set goal. I just want them to get into the habit of reading nightly, completing a book within 1-2 weeks, and taking a quiz. From September on, students will be given a goal which will be written on their reading logs. The reading log format that keiki are using for the month of August will also change beginning in September.

I look forward to a wonderful year full of reading fun!

Mahalo nui loa,
K. Kama
