

Blackboard

Blackboard (Bb) is a tool that allows teachers to add resources for students to access online at any time. Powerpoint, video, audio, animation, and other resources are created outside of Bb and added into Bb courses for students to enhance teaching and learning efforts.

Blackboard

Parent Account - This year, teachers who are using the Bb system will be able to provide a few viewing privileges to parents. Parent logins will be connected to their high school child's courses. Parents will only be able to view items such as announcements, assignments, various menu tabs with class information, as well as test scores if teachers use BB and allow for parent view.

The main content area, titled 'Announcements', shows a post titled 'Update to Athletic Training Promotional Video' posted on Wednesday, December 4, 2013, at 10:29:05 PM HST. The post text provides an update on the criteria for the Athletic Training promotion, listing two requirements: 1. The video must be at least 1 minute long but no longer than 1 1/2 minutes. 2. The video must include all participants in some form, and at least one of the four ATCs must answer the questions creatively. The post is attributed to Timothy Freitas and posted to the Athletic Training group.
