RE: **Follow-up to Chickenpox Memo Dated Feb 9, 2009**

---

As a follow-up to the new Chickenpox vaccine requirement memo dated February 9, 2009, we have sent via US mail a copy of the memo and a Varicella/Chickenpox Update Form. The form indicates the information on file regarding your child's Chickenpox immunization history.

If your child needs a second vaccination or your physician has other information that would indicate that your child meets the requirement, this form should be taken to your physician to complete and sign. It can be faxed, emailed or sent in the return envelope included.

Please contact us if you have any questions or concerns.
