How are you doing in Glens falls? I hope that you guys aren't too cold there. The people in Hawai 'i are good and it's just raining on and off. I can't imagine how cold you guys were during the Christmas season. I am excited that we get to meet you guys from all the way across the country and see how you like to spend your free time. I enjoy spending my time playing with my piglets and farming. I love to spend time with my dad and just being with my animals. I like the foods that we eat and it may look weird but they taste great.
