Printing PDF documents in SMS

- For PDF documents that require specific formatting, go to File > Print. In the Page Sizing & Handling section under Size Options, make sure the Actual Size radio button is selected. See "Actual Size" Screenshot.
- Some versions of Adobe Acrobat are different. If you do not have this option try going to File > Print. In the Page Handling section make sure the Page Scaling is set to "None". For some users, the Page Scaling is set to "Fit to Printable Area" which will cause issues. See "Page Scaling" Screenshot
