

Photo Booth- Creating a Video In 4 Easy Steps

1) In your Applications folder, find and open the application “**Photo Booth**”

2) On lower left corner select the “**Movie**” button

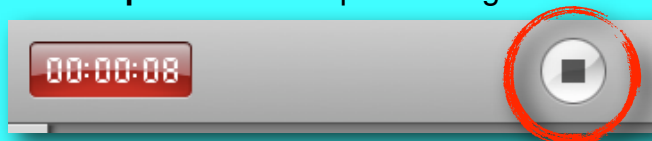

3a) To begin recording your movie click on the **camera button** at the bottom center of the window.

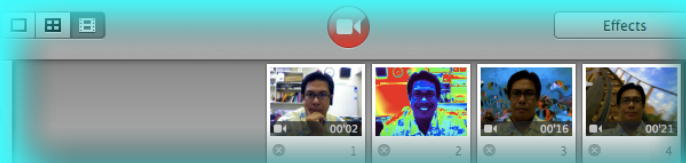

(note: Photo Booth will give you a 3 sec count down to prepare yourself)

3b) Press the **stop button** to stop recording

4a) Your finished video will appear in the **thumbnail drawer**. You can now drag it to the desktop to be renamed and uploaded to iMovie or upload it to the web to your favorite blog.

4b) In addition you can also choose to Email, add to your iPhoto, create a Account Pic or Create a Buddy Pic.
